

Hello coders, Welcome to the CSI - Fill in the code!

We have a few things to describe about the event -

1. The event is divided into 2 parts. The 1st part starts on Google forms whose link will be shared to you on 11th april 11am. It will contain part one questions and their respective guidelines.
2. Part 2 questions will be provided in a folder whose link will also be in the Google form.
3. You can choose to progress in any manner doing first part 1 or part 2
4. All the questions in part 1 will be available in python or Java only
5. Solutions of part 2 question can be submitted in any one language - python, java or C
6. You can choose different language for different question.
7. You have to submit part 2 solutions by uploading them to your git folder. Git repo name should be - *FITC_name*
8. The link of your git repo needs to be submitted in the google form
9. Submission deadline is 11th April 1pm
10. Event flow eg - Google form -> complete part 1 OR download part 2 folder ->upload completed code on your repo -> paste repo link in form -> submit

Prerequisites

1. Programming language of your choice and its necessary tools preinstalled
2. An IDE of your choice to run your programs
3. A git repository with name - *FITC_name*. The repo should be **public**.
4. Creating and pushing code to a git repository
(<https://www.datacamp.com/community/tutorials/git-push-pull>)
5. Alternatively you can also upload the folder on your google drive and submit its link in the form with editor access in sharing
6. Competitiveness

Grading

1. Each question will have marks indicated in them.
2. Person scoring the maximum marks with the shortest submission time wins
3. Only programs which run will be awarded marks
4. The event is about 'fill in the code' and you are expected to complete the approach given in the incomplete code. There may be other ways to solve the question other than the way provided.
5. The approach may be different in different languages
6. Changing the code provided will not be accepted as a solution

Tips

1. Use splitscreen. WindowsKey + left/right arrow. Mac - Drag to either edge
2. You can ask for 1 hint during the competition at a penalty of 2 marks for any of the part 2 questions.
